

STANDEAZLES (TM) -- and how to make them with a Boxmaker.

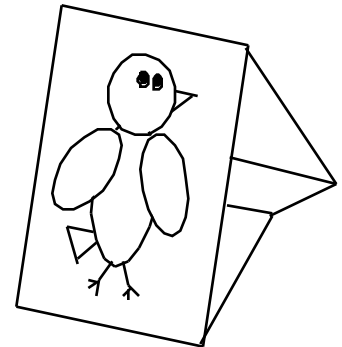

Let's say you have a 3 x 5" photo or artwork and you want to display it on a mantelpiece, table or dresser. How can you do that easily?

Make yourself a STANDEASEL.

And put the two together

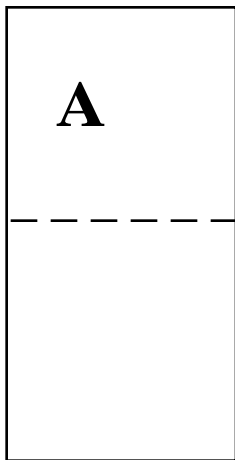

They FOLD FLAT if you want to put them away or send them to your Grandmother in an envelope.

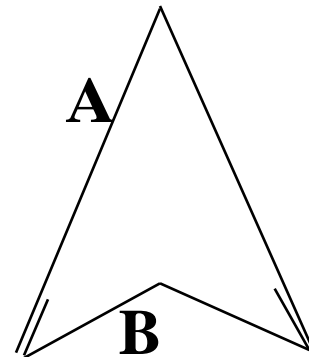

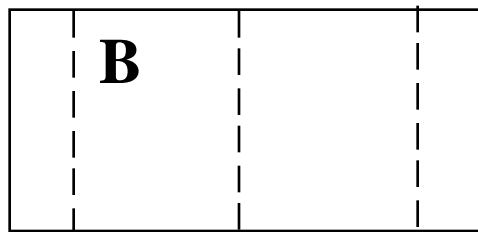

Here is how to make them.

The front panel and the back panel are the same size. Either use the same length and width as the photo -- or add borders of whatever size you want.

To mount a 3 x 5" photo -- cut a cardstock sheet (A) to 10" x 3" and score in the center with your boxmaker.

Cut a 3" x 6" cardstock sheet (B) for the base and score at 1", 3" and 5" from the left edge as shown.

Fold up as shown as glue together along the two bottom edges.

Use the same principle for any size photo or artwork. The STANDEASEL can be made out of one piece of cardstock or 6 pieces of cardstock glued together.
